**Bigfoot**

Steve Niles 2005 Steve Niles and Rob Zombie, team up to present this realistic take on the legendary Bigfoot. A monstrous ape-man is stomping around the woods of the Pacific Northwest, and he’s not happy with mankind. Bigfoot also offers master craftsmen Richard Corben a return to his true horror roots as he fully renders the imposing beast as only he can.

**Become Younger**

Norman W. Walker 2010-11-09 Dr. Walker lays out his program on how to become younger which he partly defines as having all or most of the attributes of youth, health, energy, vitality and perpetual laughter on the lips and in the eyes. The key to accessing both more energy and more vitality lies in changing our eating, drinking, and living habits. Dr. Walker encourages people to develop a very definite philosophy he calls Right Thinking, which is maintaining a positive outlook and positive thoughts about themselves and others. Together with the other principles outlined in his program, he offers readers knowledge that gives them the courage to make the changes necessary. Readers are given a brief yet concise introduction to different parts of our anatomy and how these systems work for and against us, depending upon the food we consume. Dr. Walker recommends changing old eating habits to include natural, nourishing foods. The use of juicing, fasting, and eating natural, organic foods in their unprocessed forms, including mostly raw fruits and vegetables, play an important role in maintaining good health. Through his personal observations, experience, and knowledge, Dr. Walker provides the information needed to stay younger.

**Impossible Exchange**

Jean Baudrillard 2012-01-16 Working his way through the various spheres and systems of everyday life—the political, the juridical, the economical, the aesthetic, the biological, among others—he finds that they are all characterized by the same non-equivalence, and hence the same eccentricity. Literally, they have no meaning outside themselves and cannot be exchanged for anything. Politics is laden with signs and meanings, but seen from the outside it has no meaning. Schemes for genetic experimentation and investigation are becoming infinitely ramified, and the more ramified they become the more the crucial question is left unanswered: who rules over life? Who rules over death? Baudrillard’s conclusion is that the true formula of contemporary nihilism lies here: the nihilism of value itself. This is our fate, and from this stem both the happiest and the most baleful consequences. This book might be said to be the exploration, first, of the ‘fateful’ consequences, and subsequently—by a poetic transference of situation—of the fortunate, happy consequences of impossible exchange.

**Children of the Holocaust**

Helen Epstein 1988-10-01 “I set out to find a group of people who, like me, were possessed by a history they had never lived.” The daughter of Holocaust survivors, Helen Epstein traveled from America to Europe to Israel, searching for one vital thin in common: their parent’s persecution by the Nazis. She found: • Gabriela Korda, who was raised by her parents as a German Protestant in South America; • Albert Singerman, who fought in the jungles of Vietnam to prove that he, too, could survive a grueling ordeal; • Deborah Schwartz, a Southern beauty queen who—at the Miss America pageant, played the same Chopin piece that was played over Polish radio during Hitler’s invasion. Epstein interviewed hundreds of men and women coping with an extraordinary legacy. In each, she found shades of herself.

**Cyberpunk & Cyberculture**

Dani Cavallaro 2000-04-01 Cyberpunk and Cyberculture explores the work of a wide range of writers- Acker, Cadigan, Rucker, Shierley, Sterling, Williams and, of course, Gibson - setting their work in the context of science fiction, other literary genres, genre cinema - from Metropolis to Terminator to The Matrix - and contemporary work on the culture of technology.

**Reagan's America**

Garry Wills 2017-06-20 New York Times Bestseller: A “remarkable and evenhanded study of Ronald Reagan” from the Pulitzer Prize–winning author of Lincoln at Gettysburg (The New York Times). Updated with a new preface by the author, this captivating biography of America’s forty-fifth president recounts Ronald Reagan’s life—from his poverty-stricken Illinois childhood to his acting career to his California governorship to his role as commander in chief—and examines the powerful myths surrounding him, many of which he created himself. Praised by some for his sunny optimism and old-fashioned rugged individualism, derided by others for being a politician out of touch with reality, Reagan was both a popular and polarizing figure in the 1980s United States, and continues to fascinate us as a symbol. In Reagan’s America, Garry Wills reveals the realities behind Reagan’s own descriptions of his idyllic boyhood, as well as the story behind his leadership of the Screen Actors Guild, the role religion played in his thinking, and the facts of his military service. With a wide-ranging and balanced assessment of both the personal and political life of this outsized American icon, the author of such acclaimed works as What Jesus Meant and The Kennedy Imprisonment “elegantly dissects the first U.S. President to come out of Hollywood’s dream factory [in] a fascinating biography whose impact is enhanced by techniques of psychological profile and social history” (Los Angeles Times).

Philip B. Coulter 2019-09-19 The impetus to write this book grew out of curiosity and frustration. For a research project in which I was involved, I wanted to select an appropriate index to measure inequality, so I searched for a book that comprehensively reviewed the available indexes, identified their operational similarities and differences, and clarified their theoretical undepthnings. Discovering that no such book existed, I became increasingly frustrated and curious. It became evident that I would have to undertake my own systematic review of the literature, presumably in my own discipline, in order to specify the alternative measures and choose an appropriate one on the basis of proper theoretical and methodological criteria. This effort led to additional frustrating discoveries. First, I encountered a bewildering abundance of inequality indexeswell over fifty distinguishable measures. Second, my review of the methodological literature on inequality measurement took me through the issues of literally scores of professional journals in five academic disciplines-economics, geography, political science, sociology, and statistics. Third, although I found some cross-disciplinary referencing of inequality measures, by and large each discipline's inequality measurement remained insulated from that of other disciplines.

The Vienna Melody
Ernst Lothar 2015-07-21 All Vienna knows that the inhabitant of number 10 Seilerstatte is none other than Christopher Alt, piano maker, the best in Vienna, probably in all of Austria, and possibly the world over. His piano keys have given life to melodies by Mozart, Haydn, Beethoven, and many more. On his deathbed, moved by the wish to keep his children united, he leaves a will specifying that his descendants, if they are to get their inheritance, must live together in the family home. Over successive generations of the Alt family, history itself passes through the doors, down the halls, and into the private rooms of the Alt's building. There is intrigue at the court of Franz-Josef: an heir to the throne has fallen in love with Henrietta Alt, who will have to carry the guilt for his eventual suicide. There are betrayals, beloved illegitimate children, and despised legitimate offspring. There are seething passions and icy relations, a world war and the rise of Nazism to contend with. There are duals, ambitions, hopes, affairs of the heart and affairs of state. Three generations of Alts live and die at number 10 Silerstatte and each member of the family, in his or her own way, is a privileged witness to the winds of change and a Europe at the height of both its splendor and decadence.

The Films of the Seventies

Fiction 2000
George Edgar Slusser 1992 Will novels and stories be relevant in the next millennium, when the boundaries between illusion and reality, and observer and observed, may dissipate in a whirl of images, signals and data? This essay collection divines the prospects of fiction in the information age by examining cyberpunk literature. A movement less than a decade old, cyberpunk is driven by deep concerns about society, ethics, and new technology and has been defined as the literature of the first generation of science-fiction writers actually to live in a science-fiction world. These essays were first presented at the 1989 annual J. Lloyd Eaton Conference on Science Fiction and Fantasy Literature, the field's most prestigious international gathering. They address concerns common not only to cyberpunk and traditional science fiction scholars, critics, and writers but to their counterparts outside the genre as well. Interdisciplinary in perspective, the essays consider the origins of cyberpunk, the appropriation of its conventions by the mass media, the literature's paradoxical retrogressive/conoclastic nature, cyberpunk's affinities to and deviations from both traditional science fiction and postmodernist literature, the parameters and components of the cyberpunk canon, and the movement's future course. Some essays are theoretical, but all are grounded in works familiar to serious science-fiction readers: Neuromancer, Frontera, Deserted Cities of the Heart, Islands in the Net, Great Sky River, the Mirrorshades anthology, and others; cyberpunk TV and cinema like the Max Headroom programs, Blade Runner, and Tron; and precursory literature, including Frankenstein, Le Roman de l'avenir, Ralph I24C 41 +, and A Clockwork Orange. Useful for its views on a volatile science-fiction subgenre, Fiction 2000 is also valuable for what it tells us about the fate of mainstream literature.

König Ottokars Glück und Ende

The Jewess of Toledo (German Classics)
Franz Grillparzer 2013-01-06 Franz Grillparzer (1791 - 1872) was an Austrian dramatic poet. "The Jewess of Toledo" may perhaps be said to mark the climax of his productive activity. Written in 1851, it was first performed in Prague in 1872, after Grillparzer's death. It is an eminently modern drama of passion in classical dignity of form. The play is properly called "The Jewess of Toledo": for Rachel, the Jewess, is at the centre of the action, and is a marvelous creation – "a mere woman, nothing but her sex". The King of Castile, however, though relatively passive, is the most important character. He is attracted to Rachel by a charm that he has never known in his coldly virtuous English consort, and, after an error forgivable because made comprehensible, is taught the duty of personal sacrifice to morality and to the state.

William J. Palmer 1995 In this remarkable sequel to his Films of the Seventies: A Social History, William J. Palmer examines more than three hundred
films as texts that represent, revise, parody, comment upon, and generate discussion about major events, issues, and social trends of the eighties.
Palmer defines the dialectic between film art and social history, taking as his theoretical model the "holograph of history" that originated from the New
Historicist theories of Hayden White and Dominic LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer
contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues
included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations,
neoeconservative feminism, and yuppies. Among the films Palmer examines are Platoon, The Killing Fields, The River, Out of Africa, Little Drummer Girl,
Kiss of the Spiderwoman, Silkwood, The Day After, Red Dawn, Moscow on the Hudson, Troop Beverly Hills, and Fatal Attraction. Utilizing the principles
of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

"Dearest Georg": Love, Literature, and Power in Dark Times
Veza & Elias Canetti 2010-02-02 In 1934, Veza Taubner and Elias Canetti were married in Vienna. Elias describes the arrangement to his brother Georges as a “functional” marriage. Meanwhile, an intense intellectual love affair develops between Veza and Georges, a young doctor suffering from tuberculosis. Four years later, Veza and Elias flee Nazi-ruled Vienna to London, where they lead an impoverished and extremely complicated marital life in exile. Spanning the major part of Elias’s struggle for literary recognition, from 1933, before the publication of his novel, Auto-da-Fé, to 1959, when he finished his monumental Crowds and Power, the Canetti letters provide an intimate look at these formative years through the prism of a veritable love triangle: the newly married Elias has a string of lovers; his wife, Veza, is hopelessly in love with an idealized image of his youngest brother, Georges; and Georges is drawn to good looking men as well as to his motherly sister-in-law. Independently and often secretly, the couple communicates with Georges, who lives in Paris: Veza tells of Elias’s amorous escapades and bouts of madness, Elias complains about Veza’s poor nerves and depression. Each of them worries about Georges’s health—if she could, Veza would kiss away the germs. Georges is an infrequent correspondent, but he diligently stores away the letters from his brother and sister-in-law. In 2003, long after his death, they were accidentally discovered in a Paris basement and comprise not only a moving and insightful document, but real literature. From the Hardcover edition.

Beethoven’s Folksong Settings
Barry A. R. Cooper 1994 Beethoven composed far more folksong settings than any other type of composition. Most are British songs, including Auld Lang Syne and the Miller of Dee, with text by such authors as Burns, Byron and Scott. Yet Beethoven’s settings, commissioned by George Thomson of Edinburgh, have been neglected by performers and scholars alike, and nearly all accounts of them are both superficial and startlingly inaccurate. This book is based on a very elaborate study of a wide range of sources, and dispels the many myths that have been circulating about this music. Every one of the 179 settings is dated to within a few weeks and an account is given of the sources of the melodies and texts, the difficulties of sending the music across Europe during the Napoleonic Wars (smugglers were even called upon to assist!), the fees Beethoven received, and when and how the texts were added. By comparing Beethoven’s settings with those of his predecessors Pleyel, Haydn and Kozeluch, the author demonstrates that Beethoven comprehensively transcended the bounds of convention, producing settings of extra-ordinary quality and originality. Suggestions are also made for overcoming the problems of presenting these songs in performance.

Wherever It Is Summer
Tamara Bach 2017-06 A brave and simple story, written in the alternating voices of its two heroines, this is a touching story of the redemptive power of friendship from an award-winning author. The last thing either Jana (13) or Louise (17) is looking for on this hot and boring summer is a friend of totally the wrong age. But then one day, they abandon their responsibilities and irritating families, and head off in a ‘borrowed’ car for a day by the lake. Their adventure is simple – beer, ice-cream, swimming, singing – but the friendship it forges between them turns out to be profound. When Jana experiences loss, it is only Louise’s tender and funny postcards that can haul her out of depression – right out of her bedroom window and off on another adventure.

American Culture in the 1980s
Graham Thompson 2007-03-13 This book looks beyond the common label of ‘Ronald Reagan’s America’ to chart the complex intersection of cultures in the 1980s. In doing so it provides an insightful account of the major cultural forms of 1980s America - literature and drama; film and television; music and performance; art and photography - and influential texts and trends of the decade: from White Noise to Wall Street, from Silicon Valley to MTV, and from Madonna to Cindy Sherman. A focused chapter considers the changing dynamics of American culture in an increasingly globalised marketplace.
